HAMILTON AIR

## Retail Remote Transaction Systems

With Hamilton's **Model HA-1000**, installation and maintenance costs are often reduced because its powerful air turbine is located inside the unit itself. A versatile and powerful performer since 1984, the HA-1000 has become an industry standard for drive-up banking.

The **Model HA-45** is an upsend-only unit with a small foot print (less than 90 square inches) allows narrow islands and can be placed next to the building.

The **Model HA-50** has the same look as the HA-45, but blowers and turbine pack are removed and located in the drive-up canopy or virtually any other remote location. The Hamilton HA-50 is available as an upsend unit only.

The Hamilton HA-1000 is available as either an upsend or a downsend unit.

All retail transaction systems are industry standard 4.5" tube systems and feature low-maintenance stainless-steel and polymer-coated finishes. They have one-button operation, provide clear audio communication and can be equipped with optional Tell-R-TV, two-way video.

## Audio & Video Communications Systems

**Model 5517 Customer Video**

- Low-maintenance stainless-steel and ABS construction
- Can be retrofit to existing HA-1000 and HA-45
- Large 10" color LCD display
- High-intensity "Sun Viewable" option

**Model 5550 Teller Video**

- Large 10" color LCD display panel is standard
- Screen height and angle are easily adjusted
- Built-in color camera with easy tilt feature

**Model CS-55 Lightweight Wireless Headset**

- Allows hands-free communications
- Provides communication even when your service representative must move out of your customer's line of sight
- Slim and lightweight with nothing attached to your belt

**AirTalk 900**

- User-selectable "Noise Canceling" feature
- User-programmable Auto Greeter functionality
- Non static-sensitive console
- Easy-change color code system for drive-up lanes
- Built-in wireless headset port

## Drive-Up Windows & Deal Drawers

## Commercial Remote Transaction Systems

**Model HA-47** is a unique 4" x 7" system that easily handles both commercial and retail customer transactions

- Carrier lies flat, opens square and easily accepts documents, cash and coin
- One-touch operation
- Low-maintenance stainless-steel and polymer finishes
- "Tell-R-TV" Two-way video option
- Convenient front maintenance access does not disturb traffic in other lanes

**Model HA-33** is Hamilton's powerful 10" system. It handles the most demanding commercial deposits moving scores of rolled coin, paperwork and even night deposits

- Huge carrier capacity - up to 500 cubic inches
- Easy-to-use captive carrier
- "One-touch" operation
- Low-maintenance, stainless-steel construction

**Model 400DD Deal Drawer**

- Smooth manual or electric operation
- Rated U.L. Level 3 to resist .44 magnum attack
- Available for new installation and retrofits

**Model DCD-18 Deal Drawer**

- Extra large 12" x 15" delivery platform that is 18" deep
- Heater option for greater cold-weather comfort
- Ideal for large packages and restaurant drive ups

### Drive-Up Windows

- UL rated both frame and glass
- Available in sizes from 3' x 5' to 3' x 15'
- Bullet-resistive glass
- Stainless-steel construction inside and out
- Hurricane rated:
  - approved by Miami-Dade County, Florida building code compliance
  - approved for second-story installations
